

SPRING HAS SPRUNG

Foresight
Custom Homes

Helpful tips from your friends at:

Check your Thermostat-

Ensure comfort when you are home and save energy when you are away.

Change Air Filters-

Change any filters once a month. Dirty filters can increase energy costs and damage equipment.

Clean out your air conditioner compressor-

Vacuum or blow out any leaves and debris. Be sure to disconnect power first!

Clean gutters of debris-

Flush out downspouts and unclog leader pipes.

Spring Yard Cleanup-

check with your local municipality to see when their pick-up dates are for yard debris.

Check your smoke detectors-

Replace batteries if needed and don't forget the carbon monoxide detector.

Clean Windows and Screens-

Remove any screens on windows and storm doors, clean and replace.

Dust Ceiling Fans-

Wipe the blades with a damp cloth and run glass through dishwasher.

Seal Your Driveway-

Help protect your driveway against forces of nature breaking down the surface.

Clean and seal your deck

Help protect against water and UV rays.
